

UL's global network

Company Profile

Company overview

UL is a premier global independent safety science company that has championed progress for 120 years. Its more than 10,000 professionals are guided by the UL mission to promote safe working and living environments for all people. UL uses research and standards to continually advance and meet ever-evolving safety needs. We partner with businesses, manufacturers, trade associations and international regulatory authorities to bring solutions to a more complex global supply chain. For more information about our certification, testing, inspection, advisory and education services, visit <http://www.UL.com>.

Renowned for its professionalism and impartiality, UL evaluates 19,909 types of products, components, materials and systems for compliance to specific requirements. UL's time-tested system supports governmental product safety regulations, and it complements federal, state and local government public safety initiatives.

UL has 160 facilities worldwide. Its employees all over the world help manufacturers in 104 countries bring safer products to consumers. Every year 22 billion UL Marks appear on the products.

UL in China

UL has been in China since 1980 and aspires to become a “one-stop” test site for Chinese manufacturers. On Jan. 13th, 2003, UL and the China Certification and Inspection (Group) Co., Ltd. (CCIC) opened a joint-venture, UL-CCIC, in Suzhou, Jiangsu Province with a total investment of US\$15 million. UL-CCIC drives the comprehensive and in-depth collaborations among UL, China governments, manufacturers and related institutions.

Currently, UL-CCIC Company Limited has set up offices in Beijing and Shanghai. Its laboratories, a combined area of over 35,000 square meters, are located in Suzhou and Guangzhou. Its HVAC/R lab and wire & cable lab are UL testing centers in the Asia Pacific region, and its 400-square-meter Photovoltaic Technology Center of Excellence is the largest PV lab in Asia.

UL in China offers “one stop” testing and certification services that help products gain access to US or global markets. In 2010, UL set up verification testing lab in Guangzhou Nansha to provide testing and Inspection services to customers.

Scope of Service

- Product Safety
- Life & Health
- Enterprise Services
- Verification services
- Environment – Information & Insights

Major Products Tested

- Audio/visual equipment
- IT equipment
- Lighting
- HVAC
- Fans and motors
- Home appliances
- Wire and cable
- Insulating materials and devices
- Components
- Solar photovoltaic equipment
- Power tools
- Medical devices

Lab Accreditation

Successfully in the accreditatons:

- OSHA SNAP - ISO/IEC Guide 65 & ISO/IEC 17025
- ANSI - ISO/IEC Guide 65
- CBTL - ISO/IEC 17025
- CNCA - ISO/IEC Guide 65
- CNAL - ISO/IEC 17025
- CNAS - ISO/IEC 17025
- SSC - ISO/IEC Guide 65 & ISO/IEC 17025
- IAS - ISO/IEC 17025
