

As one of the world's largest independent lubricant manufacturers, FUCHS LUBRICANTS supplies the wind-power industry with a comprehensive portfolio including high-performance gear oils, hydraulic oils, greases, open-gear lubricants, rust preventives, cleaners, antifreezes and dry-film lubricants, earning wide-spread recognition across the sector.

Seizing the opportunity to support the growth of China's automotive industry, FUCHS SE entered the Chinese market as early as 1988, making it one of the first international lubricant enterprises to invest and build production facilities in China. Headquartered in Shanghai, FUCHS China runs two manufacturing bases in Suzhou and Yingkou. Backed by over ten field offices in key Chinese cities as front-line marketing outlets and more than 300 authorized dealers as long-term strategic partners, FUCHS China fully explores China's booming mid-to-high-end lubricant market.

FUCHS China has built state-of-the-art laboratories in Shanghai, Yingkou and Suzhou, fitted with imported precision instruments and high-caliber R&D professionals, to better satisfy the rising market demand for premium-grade lubricants in China.

The FUCHS China Shanghai Technical Center holds accreditation from the Shanghai Municipal Commission of Commerce and CNAS (China National Accreditation Service for Conformity Assessment) in accordance with ISO/IEC 17025:2017, and serves as the Asia-Pacific R&D hub for the FUCHS SE.

All FUCHS China manufacturing sites follow strict, unified quality assurance protocols and have been awarded certifications for IATF 16949, ISO 9001 Quality Management System, ISO 14001 Environmental Management System, ISO 45001 Occupational Health and Safety Management System and ISO 50001 Energy Management System.

FUCHS remains dedicated to delivering tailored, optimal lubrication solutions for customers. With innovative products, technologies and services, we continuously support the advancement of China's manufacturing industry.
