

深圳丰业达科技有限公司

Shenzhen Frenda Tech Co., Ltd.

Professional Connector and insulator Manufacturer

Shenzhen Frenda Tech. Co., Ltd. is a manufacturer of Hot-pluggable Power Connectors and associated electric component, which is a Hi-Tech company, integrated design, production and sale as a whole. JMD Series Power Connectors, JMT Series Power Blade Connectors, PHD Series Edge Card Connector, Standoff Isolator, Customized Pin Contact & Socket Contact, are our star products. Our products are widely used in Large network project, Computer communication and Industry control, Electric power, UPS, Railway. Solar energy, LED, New energy electric automobile etc.

Main Products

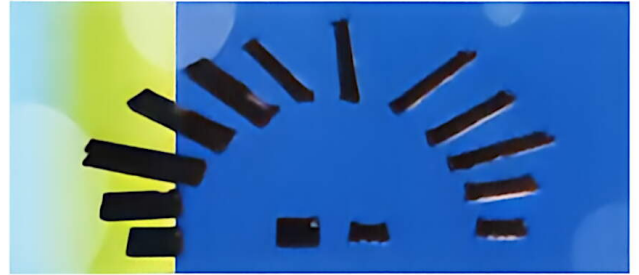

1. JMD SERIES POWER CONNECTORS

JMD series connectors support hot-plug, joint both signal and power in one, includes JMD3A-, 4-, 4A-, 8A, 8C, 10, 13, 15, 17, 18, 19, 19A, 20, 25, 28, 29, 29A, 33, 37-1, 37-2, 40, 40A 52, 83, 83A core connectors etc. All Optional terminal styles including Crimping, Solder cup, PCB tail and Thread.

2. JMT SERIES POWER BLADE CONNECTORS

JMT Series Power Blade Connectors adopt high conductivity copper alloy as contact parts, add signal and power integration, mini-type, large current, mating gentleness, blind mating, guide mating and good reliability. It's a substitute for Power Blade series connector of FCI, MULTI-BEAM XI series connector of TYCO. The flexible series can be customized as the qty of Power or Signal pins.

3. PHD SERIES

PHD Series Edge Card Power Connector adopts high conductivity copper alloy as contact parts, which has signal and power integration, mini-type, large current, mating gentleness, and good reliability.

4. JYZ SERIES INSULATOR

Insulators are used for power supplies and cabinets to insulate and support live parts. Our insulating material has the characters of high strength, excellent electrical and mechanical performance, named BMC material, flame class UL 94V-0, and passed UL certificate.
